DEFINITION OF A TRIAL

A Trial is an event in which the skill and regularity of the riders form the basis of the results.

Sections are included within the course, where the skill of the rider negotiating them is observed and penalties given. In addition, a time limit is set for part of, or for the whole course.

The course may consist of cross-country terrain, country lanes, and woodland tracks *etc.*

WHAT´S NEW FOR 2023?

STOPP ALLOWED AGAIN

After 10 years with the «no stop rule» introduced by FIM in 2012 and made obligatory in the European Championships from 2013, we have now been allowed to reverse back to «stop allowed rules» for 2023 in the European Championships.

For 2023 we have basically gone back to the definitions of failure in § 01/02/03 10.2.2 rules from 2012. We have deleted «T*he machine ceases to move in a forward direction relative to the course».* Accordingly we have also added the prohibition of going backwards **with the rider footing**. A 1 minute 30 seconds time allowance for completing the section is added (§ 01/02/03 5.5).

For other changes, please se paragraphs with number marked in **bold** in the tables of content.

TL 01.1 GENERAL

The FIM Europe has established the FIM Europe Trial European Championship, the FIM Europe Junior Trial Cup and the FIM Europe Over-40 Trial Cup.

The European Championship is open to riders of at least 16 years of age at the date of the event.

The FIM Europe Junior Trial Cup is open to riders of at least 15 years of age at the date of the event and who are under, or reach, 23 years during the current year. NB Riders under the age of 16 years at the date of the event are restricted to motorcycles not exceeding 125cc (a +2cc is allowed as a tolerance on capacity).

The FIM Europe Over- 40 Trial Cup is open to riders of over 40 years of age at the date of the event.

Each event also includes an International Class. The International Class is open to riders from 16 to 39 years of age at the day of the event. They will compete on the same section route as the Over 40 Cup. There is no final classification for this class.

All classes are open to riders from other CONUs.

Each event includes:
- Technical and Administrative controls.
- The Trial
- Prize-giving ceremonies

TL 01.1.1 FIM Europe Standards for Organisers

It is the responsibility of the FMNR to ensure that the starting area, the riders' paddock, the sections, the course, and the other installations fulfil the demands stated in the Compulsory Standards for Organisers.

Each FMNR shall appoint a person to ensure that all Standards for Organisers and requirements of the Environment Code are respected throughout the event and also ensure that the Organiser is fully conversant with these Rules.

The Jury President will inform the FIM Europe of any violation of the FIM Europe compulsory standards for organisers; the FIM Europe may then impose a sanction on the FMNR.

TL 01.1.2 Meeting with the Organisers

Two days before the competition, a meeting will take place between the organisers and the Jury President. This meeting must include the following persons:
- the Jury President
- the Clerk of the Course
- the Secretary of the event
- the person appointed by the FMNR as detailed in TL 01.1.1
- the person responsible for the Sections.

Other persons who the Jury President or the Organiser feels appropriate may attend.

TL 01.2 JURISDICTION

An International Jury composed of a Jury President appointed by the FIM Europe, a Jury Member appointed by the FMNR will supervise the event. A third jury member may be appointed from amongst the licensed delegates or a present member of the FIM Europe Trial Commission. If no other person with a sporting steward license is present at the event, the Jury President will have a casting vote in the case of a tie (FIM Europe Sporting Code art 50.1).

A Jury Member cannot take part as an Assistant (FIM Europe Sporting Code art 40.3).

Any FMN with a rider competing in the event may send a delegate with a sporting steward license to attend all open meetings of the Jury. The Jury Delegate can report any observations to the Clerk of the Course or at the open Jury meetings. The Jury Delegate has no jurisdiction and must not discuss any concerns directly with observers or other officials.

TL 01.3 COURSE

The route should be in one direction only. If, in exceptional circumstances, two-way traffic is unavoidable, then special safety measures must be taken, e.g. separating the track or positioning of officials.

It must be possible for the riders to complete the course (from the paddock to all sections and back) without the use of public roads (unless closed for general traffic with permission from the authorities and guarded by police or officials).

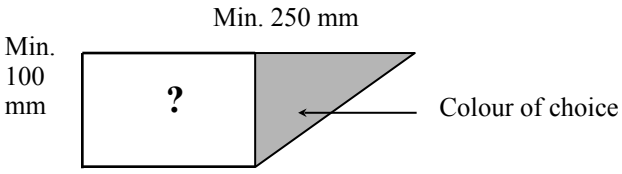
To be classified as a finisher the rider alone shall ride or push the machine for the entire distance of the Course, unless the organisers have authorised other assistance or authorised deviation.

TL 01.3.1 Distance

The length of the course for each lap shall not exceed 20 km. The Trial shall consist of 2 laps. If an exception as described in TL 01.4 applies, 3 laps may be used.

TL 01.3.2 Course marking

The course shall be marked with direction arrows as shown below:



Within the square marked ? shall be written the number of the section to which the arrow directs the riders. All arrows must be made of waterproof material.

During the event the marked route must be strictly followed. A rider who leaves the route must, under penalty of disqualification, regain the course at the point where it was left.

The course shall be completely marked the day before the event and the riders will be allowed to follow it by motorcycle under their own responsibility during the scheduled inspection of the sections (see TL 01.7.1).

For safety reasons, there must, wherever possible, be a route marked for spectators, different to that marked for the riders. If spectators riding motorcycles are allowed to

follow the course, this must be mentioned in the Supplementary Regulations, and necessary safety measures must be taken to avoid conflicts between competitors and spectators riding motorcycles.

TL 01.4 SECTIONS

The number of sections shall be 15 per lap. The Trial Commission may, under special circumstances, make exceptions regarding the number of sections per lap. The total number of sections should be as close to 30 as possible, and 3 laps can be used to achieve this.

Different lines within the sections, shall be provided as appropriate for riders of the Championship, the Junior Cup, the Over 40 Cup and the International Class (see 01.4.2).

For each class the sections must be designed so that at least 1/3 are of an easy, medium and difficult level. Each section shall be completely independent of other sections.

Sections constructed predominantly with industrially processed elements or materials should be avoided and can eventually be abandoned by the jury.

Each section must be clearly numbered in consecutive order, and the rider must, under penalty of 10 points, attempt the sections in numerical order.

Each section shall have signs clearly identifying the location of both the “Section Begins” and “Section Ends”. The Sections must be numbered at the time of the Rider’s inspection.

A machine is considered as being in a section when the front wheel spindle has passed the "section begins" sign and until the time when the front wheel spindle passes the "section ends" sign.

Where it is found necessary to abandon any section owing to "force majeure" before all riders have passed through, no penalties shall be incurred in this section by any rider. If there are riders in the queue for this section, then the queue should be formed in the same order at the next section. The total time for the event shall not be modified in the event of any section being abandoned during the Trial.

If any section proves during the first lap to be impossible for all riders (all 5 points) that section shall not be modified for the next lap but may be abandoned at the conclusion of the lap. The penalties incurred by any rider in the section shall be included in that rider's total penalty points for the event.

TL 01.4.1 Section Corridor

A corridor shall be provided at the entrance to each section and it shall be controlled by a responsible Official.

This corridor shall allow at least two riders to sit in a queue with their machines when they are ready and prepared to attempt the section.

The rider will be penalised by failure (5 points, see TL 01.10.2.2 p 14) for contravention of the following:

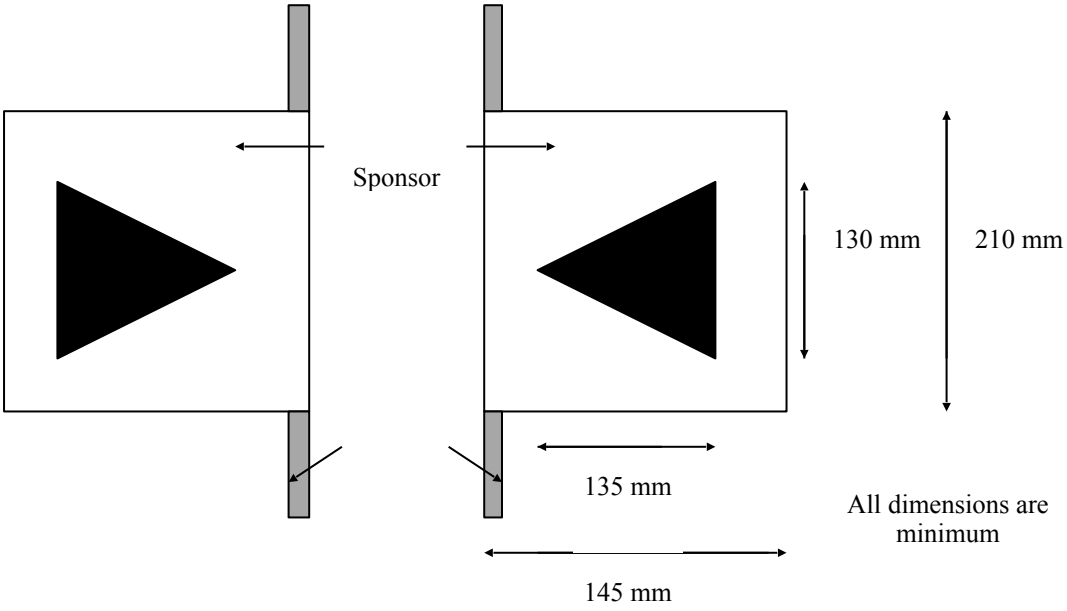
a. Leaving the machine in this corridor.
b. The Assistant entering the corridor.
c. Receiving any outside assistance to the machine in this corridor

TL 01.4.2 Section Boundaries
The sections shall be bounded by natural obstacles and strong, easily visible waterproof tape, securely fastened to stakes or trees.

The stakes must be securely fixed to the ground and be spaced close enough to each other to prevent major movement of the tapes. The tape must be at a minimum height of 10 cm above the ground and below a maximum height 30 cm. The actual width of the section defined between the tapes shall be at least 200 cm.

When a tape is used as an external limit of a section or as an internal separation within a section, then the following shall apply. Breaking the tape or passing over a tape so that a wheel touches the ground on the opposite side shall be considered as a failure.

The actual width of the section may be reduced using "gates" indicated by markers, as shown below, with the minimum width between these markers being 120 cm.



Riders must travel only between the “gates” for their Class. A rider who passes between the “gates” of another Class – in whatever direction irrespective of if used that day – will be classed as a failure i.e. 5 points.

If any tape or any marker or stake is broken or moved then it must be replaced before the passage of the next rider. The Clerk of the Course must ensure that there is an adequate reserve supply of tape and markers available at each section.

01.4.2.1: Colour codes in the sections
The Arrows within the gates shall be coloured red for the Championship Class, blue for the Junior Cup and yellow for the Over 40 Cup and the International Class.

TL 01.4.3 Observation Enclosure
An observation area shall be created, on the outside of the section limits. The outer limits of this enclosure shall form the barrier for the public. Only officials, the riders, the assistants and the press are allowed within the limits of this enclosure. The enclosure must be of sufficient dimensions to allow the passage and work of officials, assistants and the press.

TL 01.5 TIME ALLOWANCE AND CONTROL

TL 01.5.1 Time measurement

In order to carry out the duties, the time control official shall be in possession of an instrument which registers to the tolerance allowed.

A reserve chronometer which registers to the tolerance allowed shall be at the disposal of the time control official.

Riders must accept any type of timekeeping system approved by the Jury.

.

TL 01.5.2 Individual Time Allowance

The time allowance for each rider to travel from the start to the lap time control on the first lap subject to TL 01.5.2.1 shall be 3:00h.

The overall time allowance for each rider to travel from the start to the lap time control on the second lap subject to TL 01.5.2.1 shall be 5:00h.

Irrespective of the actual time a rider starts, the scheduled time for all finishing times will be retained. Time penalties for late starting or late arrival at any other time controls are given in TL 01.10.1.

TL 01.5.2.1 Increase in Individual Time Allowance

The Jury may increase the rider's time allowance by up to a total of 30 minutes. In such a case all riders must be informed of this alteration before the start.

TL 01.5.3 Starting Time and Control

The Organiser must fix the starting time so that the last rider is able to start no later than 11am. The Start Time Control shall be at the starting place with the riders starting from a platform.

TL 01.5.4 Lap Time Control

The lap time control, clearly marked and well visible, shall be located immediately after the final section. Riders will remain subject to the restrictions on repairs and replacements of parts until the machine is released by the organiser at the finish point (see TL 01.9.4).

To travel from the lap time control to the finish point each rider may be allocated a set period of time. This time allowance will be set by the Jury and displayed on a notice board at the lap time control. Any rider who exceeds this allowance shall be liable to a fine penalty of Euro 50.- + 5 points.

TL 01.5.5 Section Time Allowance

A time allowance of one and a half minutes (90 seconds) is allowed for each rider to complete each section. Any rider who fails to complete a section within the one and a half minutes time allowance will be deemed to have failed that section.

The time will start when the rider passes the Section Begins line. The time will be measured by an official who will use a whistle to signal the start of the time allowance. If the rider has not completed the section on the completion of the one and a half minutes time allowance, then the official shall give a long blast on the whistle to signal failure. The decision of the official in charge of this time measurement shall be deemed a statement of fact.

TL 01.6 PRACTICING

Practicing in the sections of the Trial is forbidden under penalty of disqualification.

TL 01.7 RIDERS INSPECTION OF THE SECTIONS

TL 01.7.1 Inspection of the Sections prior to the event.

Following agreement with the Jury President, the organiser must display on the Notice Board times during which the riders are allowed to visit and inspect the sections the day prior to the event.
During the visit of the Section the rider must wear the riding bib and only the rider is allowed within the Section Boundaries.
If any person with an interest in the performance of the rider enters a section without authorisation, the rider shall be penalised with a fine of EUR 200.–.

TL 01.7.2 Inspection of the Sections during the event.
The riders are allowed to inspect the Sections on foot during the event.

Junior Cup: Riders must be holders of an annual or one event Trial Continental promotional license (or a FIM Continental Championship License).

International Class: Riders must be in possession of an annual or one event FIM International Trial Meeting License issued by the FIM web application (or any other valid Continental Trial License). For events organised by their own FMN, a rider may use a National License.

TL 01.8.2 Submission of entries

A rider wishing to enter an event must send to the organiser a completed entry form at least 14 days prior to the event. The organiser will be able to accept entries arriving until 4 days prior to the event, but the entry fee for rider and assistant will then be doubled. The dates for closure of entries will be stated in the Supplementary Regulations (SR).

Riders must state on the Entry Form whether they wish to ride the Championship Class, Junior Cup, Over-40 Class, or the International Class. A rider who has previously ridden in the current year in one class, may change class, but cannot later revert to the original choice.

If entries are to be limited, the maximum number to be accepted and the method of selection must be stated in the Supplementary Regulations (SR), following approval by the FIM Europe. Riders entering for the Championship class shall always be given priority of entry followed by the riders in the Junior Cup and then the Over-40 Class.

No entries shall be accepted after the closing date for receipt of entries as stated in the Supplementary Regulations. In case of a rider entry not being received by the closing date of entries due to administrative problems, the Jury President must satisfy himself that the rider concerned is fully licensed and authorised to compete. In such circumstances, the Jury President's decision shall be final.

The entry of a particular make of motorcycle and nomination of a rider having been accepted cannot be changed unless application in writing is made to the Clerk of the Course, giving the reason and permission obtained.

The Organiser must confirm, by e-mail, to the FMN of each rider who submits an entry whether the entry is accepted or not.

Any rider who does not participate in the event, or who has not submitted a valid reason, will be reported by the International Jury to the FIM Europe, who may impose a penalty fee of up to Euro 300.-

Upon receipt of the International Jury's report, the FIM Europe Secretariat will send a letter to the rider's FMN asking the reasons for the non-participation; a reply should be sent within 15 days at the latest and a decision will be taken regarding the penalty.

TL 01.8.3 Entry fee
The entry fee for the rider shall be € **60 for one 1 day and** € **90 for 2 days competition.** The fee for the Assistant shall be **€ 50 for one 1 day and € 75 for 2 days.**

The assistant' machines can be subject to technical control at any time during the event for security reasons and regarding sound level.

The rider may receive assistance by any person to repair the machine, or change any un-marked parts, except within the boundary of a section or within the boundary of a corridor. Only the rider is allowed to ride or push the machine on the course.

TL 01.8.7 Starting order
The starting order for all riders will be decided by ballot according to Class.
When two rounds are organised at the same weekend, one ballot for each day will be done during the Administrative Control.

Riders in the International Class will start first, followed by the Over-40 Cup, the Junior Cup and finally the riders in the European Championship Class.

TL 01.9 TECHNICAL

A Technical Control shall take place during the same time period as the Administrative Control. Further Technical Controls may be made at any time.

TL 01.9.1 Equipment of the motorcycle
Motorcycles and their equipment must comply with the FIM Technical rules for Trial. However, for all categories of the European Trial Championships, exemptions have been made regarding engine capacity and weight of the bike. There are no restrictions to the engine capacity of the bikes, **except for riders in the youth class and riders under 15 years of age**. Also the 2013 weight limits of 65 kg for 125cc bikes and 66 kg for bikes over 125cc are still valid. The weight limit does not apply for electrical motorbikes.

Tyres must be of the Trials type, in accordance with the Technical rules. Tyres must be normally available from retail and wholesale sources. Prototype tyres are not allowed. Any replacement tyre must be of **the same manufacturers mark** as the original tyre.

Only the fuels in conformity with the Trial Technical Rules are authorised. Failure to comply with this rule will be penalised by disqualification. *Electrically powered bikes are allowed in all categories.*

A cut-off switch with a lanyard fixed on the rider must be installed and operational once the rider is on the machine.

TL 01.9.2 Riders equipment
It is compulsory for the rider to wear a helmet, boots, gloves, arm covering, back protector, knee protector and other clothing requirements as detailed in the FIM Technical Rules Appendix Trial.

TL 01.9.3 Sound level Control
At the preliminary technical control, the sound level of all motorcycles will be measured according to the rules stated in the FIM Technical Rules, Appendix "Trial". Any machine that fails this test may have adjustments made or have parts replaced until the sound level is in accordance with the Code. If a new silencer is fitted, then it shall be marked. Only after a successful test will the silencer be marked.

TL 01.9.4 Marking of parts
At the preliminary technical control, the following parts will be marked as described below, in such a way as to ensure their identification. The parts so marked must be used throughout the event and must be in their proper place at the final examination. The substitution of the original components and disregard of these regulations is strictly forbidden. The penalty for breach of this regulation is disqualification.

Parts	Marking	#	Where marked
Frame – Main section	paint or non removable sticker	1	Right side of Steering head
Engine/Crankcase	paint or non removable sticker	1	Right side
Silencer *	paint or non removable sticker	1	

* Does not apply for electrical bikes

Marking is restricted to these three parts only. The rider's number must be inscribed in the paint, or on the non removable sticker of the marked part.

At the preliminary examination the make and the identification number of the tyres shall be noted by the organisers.

If an exhaust silencer is accidentally damaged, so rendering the machine excessively noisy, then the rider may replace the silencer. However, this action must be declared to the officials at the completion of the current lap. Any machine which has had the exhaust silencer replaced will be subject to a noise test at the finishing point.

TL 01.9.5 Responsibility of rider
The rider will sign an agreement certifying that the parts have been properly marked.

TL 01.9.6 Checking of parts
Any rider whose machine does not carry the marked parts will not be allowed to start.

The organiser may examine any machine at any time during the event. If any marking is missing, the official will inform the Clerk of the Course who will examine the case and submit a report to the International Jury on the action taken. The Clerk of the Course's decision regarding the marked parts will be considered a statement of fact.

As each rider completes the trial his/her machine shall be subject to a final technical examination.

TL 01.9.7 Refuelling
Refuelling of all motorcycles must only take place in the paddock, with the use of an environmental mat to protect the ground from contamination.

Refuelling in the paddock without the use of an environment mat will entail a fine as defined in the Environmental Code. Refuelling outside the paddock will result in disqualification and the removal of the rider's bib as well as that of the assistant.

TL 01.9.8 Charging or change the battery
Electric motorbikes will only be allowed to charge or change the battery in the paddock taking into account the conditions stated in the FIM Trial Technical Rules, article F 44.1 Charging the Battery and F 44.2 Battery Swap.
